Mate

Designer	Robin Rizzini
Year	2008-2012

Mate is a system of sofas and modular elements, designed to offer maximum versatility. Its clean, defined lines shape an essential aesthetic, while the comfortable padding naturally accommodates the body, providing optimal support and a deep sense of relaxation. A refined touch is added by the top stitched seam, which enhances the design's elegance without weighing it down. Thanks to a practical sliding system, the seat depth can be adjusted on the intermediate elements (95 cm) and the end units with armrests (119 cm), extending it by 18 cm for even greater comfort.

Frame
Sofas and sectionals with a frame in wood and elastic belts.
Concealed feet.
Filling in non-deformable variable density polyether and down or in polyester wadding.

Cover
Fabric or leather, removable cover.
