

Sag

Designer	Nendo / Oki Sato
Year	2016

Versatile and essential, Sag is defined by its soft and lightweight forms, perfect for adding a dynamic touch to residential indoor spaces. Its unique structure, conceived as a single piece folded onto itself, evokes the image of fabric suspended in mid-air, giving Sag its distinctive aesthetic. Functioning as both a stool and a side table, its polyurethane base, available in white or taupe, seamlessly blends with modern design, effortlessly adapting to various styles.

Base
Structural high-density TECH® polyurethane, goffered finish.

Polyurethane top
FreeForm polyurethane.

Bamboo top
Bamboo veneered plywood panel, with narrow plank and evaporated finish.
