

Yale

Designer	Jean Marie Massaud
Year	2009-2018

Compasso d'Oro in 2011, the Yale sofa by Jean Marie Massaud was recognised for its innovative vision of an upholstered piece combined with a minimalist structure. The collection includes sofas, armchairs, a bed, and a coffee table, all defined by a formal synthesis that emphasises lightness, achieved through the continuous subtraction of material that does not affect comfort, ensured by sophisticated, enveloping cushions.

The Yale sofa, with its strong and distinctive identity, offers extensive customisation options through a wide range of fabrics, finishes and colours, making it perfect for any setting, whether residential or contract. This essential elegance, free from any stylistic excess and focused on the essence of the design, is also reflected in Yale Bed and Yale Low Table.

Yale frame

Frame in extruded aluminium with elastic belts, die-cast aluminium feet. The profile in steel, fixed to the frame, supports and holds the backrest cushions and the arm. Cushions with removable cover, in non-deformable variable-density polyether and polyester wadding.

Yale X frame

Extruded aluminium frame with elastic bands, die-cast aluminium feet.

Backrest and armrest with internal load-bearing structure in tubular aluminium and a particular system for fastening to the profile. Variable-density foam polyurethane padding and cover in Rollo Fill® (polyester microspheres) and polyester wadding.

Cover

Fabric or leather, removable cover.

Frank fabric not available for Yale X H103.
