

Yale Bed

Designer	Jean Marie Massaud
Year	2018

Jean Marie Massaud's creations are designed for a functional and contemporary house, embodying a style of living where formal simplicity seamlessly integrates with creativity, quality, innovation, and refined aesthetics. The designer translates the conceptual essence of the Yale X sofa into the bedroom, reproducing the softness and comfort of the upholstered element for the headboard and the refined aesthetics of the sofa base as a distinctive element of the bed frame. The concept of the bed is summed up into a welcoming headboard that ensures optimal comfort for relaxing, reading, or watching television, together with a quality mattress and a comfortable pillow. Yale Bed is available with high headboard, with fabric or leather upholstery to meet different comfort and style needs.

Frame

Extruded aluminium, legs in matt painted die-cast aluminium.

Headboard

Bearing structure made of 20 mm \varnothing tubular section of aluminium, covered with a non-deformable polyurethane insert of differentiated density. Inner cover composed of cotton fabric and pockets filled with soft polyester microspheres that generate a "feather effect".

Cover

Fabric or leather, removable cover.
