

Yale Low Table

Designer	Jean Marie Massaud
Year	2010-2018

The Yale Low Table collection consists of rectangular and square coffee tables that echo the modern and refined design of the Yale, Yale X, and Yale Bed.

The structure, made of extruded aluminum, and the die-cast aluminum legs, finished in matt painted white or lead black, provide the tables with a sense of visual lightness while ensuring stability. The tabletops are available in a variety of finishes and materials - resin, marble or oak -, allowing the tables to seamlessly blend into different environments and styles.

Resin top

White resin, 9 mm thick.

Marble top

Marble top with matt or glossy polyester protection, visible thickness 15 mm.

Wooden top

Open pore brushed oak wood, visible thickness 10 mm.

Frame

Extruded aluminium and die-cast aluminium legs, matt painted.
