

COMPONENTS, MATERIALS & FINISHES

Untreated MDF wood fiber structure, covered with fine gold leaf. This consists of a thin sheet of polyester with silver paint, coated in yellow to simulate the color of gold (12 microns). The sheets are glued using Mixtón (an adhesive varnish). The base is lined with a sheet of black felt.

The lampshade is made with a steel frame coated in white plastic. The fabric used as a light diffuser is an ivory-colored cotton-rayon blend. Handmade.

BLACK EDITION: lamp shade in black cotton and rayon.
