

# Tatami

Designer	Cameranesi Pompili
Year	2023

Hand-weaving is an ancient artisan technique originating in India that means the rugs last in time. It offers similar aesthetics and quality to those of hand-knotted rugs, with the difference that this process speeds up production. The Tatami rugs have simple geometric patterns, they are woven line by line on a horizontal loom.

Composition: 75% wool and 25% bamboo silk (innovative natural-origin yarn obtained from bamboo vegetable fibre processing).

## Tatami

Country of production: NEPAL

Surface flammability certifications: ASTM D 2859 06. Specific certifications available on request. Treatments: fire-resistant and stainproof.
