

Mia armchair

Designer	Francesco Bettoni
Year	2014-2016

The Mia armchair is defined by its inviting shape, inspired by the simple gesture of folding a cushion to create an intimate and relaxing space. Its bold profile, paired with coordinated or contrasting upholstery, gives the armchair a distinctive and versatile character, ideal for both residential and contract settings. Available in both a fixed version and a 360° swivel version with a return mechanism, Mia combines comfort and functionality while maintaining a soft, voluminous aesthetic. For added comfort, it can be paired with a matching pouf, offering a complete solution for moments of pure relaxation.

Frame

The supporting structure is made of solid wood and plywood with a base equipped with elastic belts; the filling is in variable density polyurethane foam, and the cover in polyester padding. The armchair is available either in a fixed version or in a 360° returning swivel base.

Trim in a contrast colour

Extra-thick decorative trim which emphasizes its sinuosity by tracing its edges and intersections. The trim can be in the same tone of the cover, or in a contrast colour - Londra fabric.

Cover

Fabric or leather, removable cover.
